Your Contract Logistics Partner

Evolve Logistics Limited is a Freight and Logistics company based in Nairobi, Kenya. We work with our network partners across the region and globally, which enables clients to benefit from freight packages tailored to their individual needs and time requirements.

International trade has seen major change in recent years; in the past, logistics involved simply moving goods from one place to another. Today, the market demands comprehensive services and specific logistics processes, making Contract Logistics the ideal solution for companies wishing to monitor and manage their operations.

At Evolve logistics limited we distinguish ourselves by providing world class CONTRACT LOGISTICS - comprehensive course of action that merges traditional **logistics** with supply chain management processes effectively promoting and delivering freight forwarding, handling and customs clearance services from service points in Nairobi, Mombasa, Kampala, Juba, Dar es Salaam and Kigali among others cities in Eastern and Central Africa countries through Air Freight, Sea Freight, Rail Freight and Road Transport.

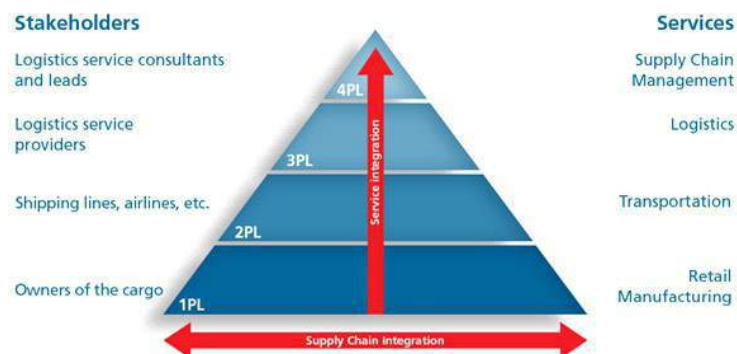

CONTRACT LOGISTICS

Contract Logistics is defined as the comprehensive process from production to distribution at the final point of sale. This means that contract logistics offered at Evolve Logistics Limited is not simply the process of moving goods, but a far more comprehensive course of action that merges traditional logistics with supply chain management processes.

EVOLVE LOGISTICS LIMITED is prepared to address any 4PL challenges you may face. We currently carry out Contract Logistics operations and are familiar with the process. We have achieved success in this area, having handled various accounts our services are greatly acknowledged for the following features:

SERVICES

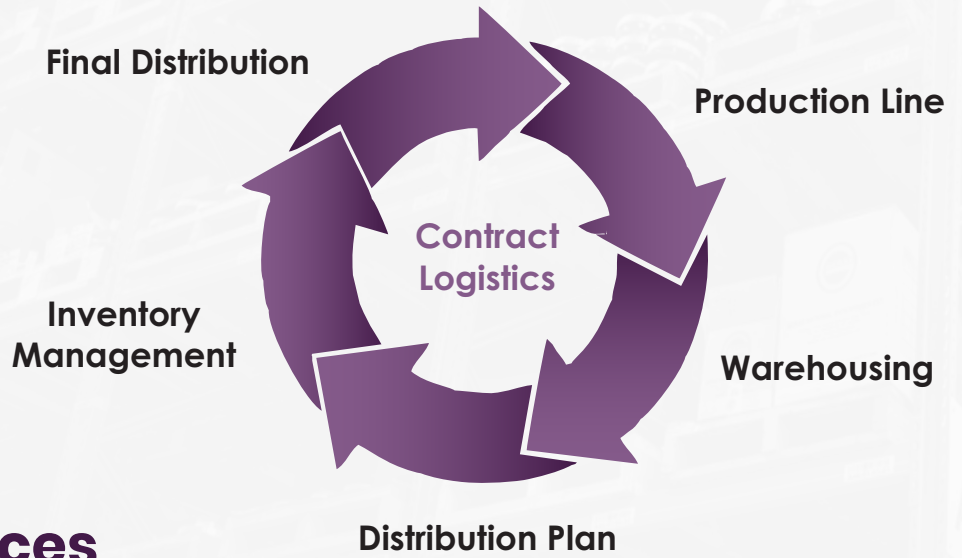

- ✓ Covered Storage, multi temperature regime
- ✓ Open Yard Storage
- ✓ Online Order Tracking
- ✓ Online Inventory Management & Reporting
- ✓ Order Kitting
- ✓ Cross Docking
- ✓ Reverse Logistics
- ✓ Proof of Delivery
- ✓ Last-Mile Delivery/Distribution
- ✓ Promotional Packing

Our Contract Logistic Process

When this fourth party to the logistics process enters the scene, a new handling protocol is established for the goods; this is a value chain where service has a direct impact on the outcome of the operation. This protocol addresses various areas:

- Production Line
- Warehousing
- Distribution Plan
- Inventory Management
- Final Distribution

Contract Logistics Services

Main Services

At EVOLVE LOGISTICS LIMITED we have identified the key services necessary for the supply chain to be executed from start to finish, using the necessary infrastructure throughout the process.

- Access to goods from the production line
- Specialized warehousing
- Delivery and shipping of goods
- Distribution to point of sale
- Reverse logistics (post-sale and returns)

Value-Added Services

These are services Evolve Logistics offers to round out the value chain. This, however, does not mean they are less important than the main services.

- Consulting and Customs Clearance
- Insurance on Goods
- Quality Management

- ✓ Short/Long Term Storage in go-downs and yards
- ✓ Fumigation and Phyto-sanitary Services and Certification
- ✓ Package palletization
- ✓ Stock Monitoring
- ✓ Customs Brokers
- ✓ Relief Cargo Handling
- ✓ General Cargo Handling
- ✓ Cold Room Storage

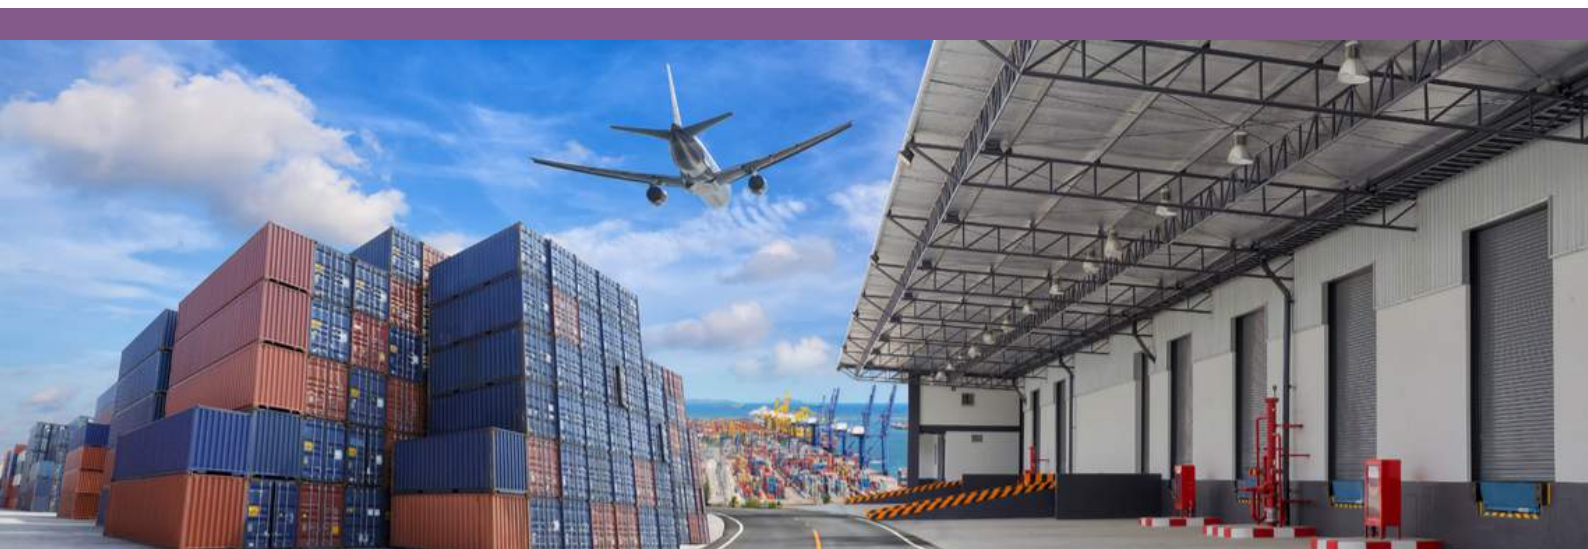

REVERSE LOGISTICS

Evolve Logistics provide a complete end-to-end service that offers you a system for managing product returns, including a zero-landfill solution. Many manufacturers and distributors are looking for ways to stem the bleeding that often takes the form of returned goods. Some companies destroy the products or dismantle them and recycle the parts. But many, if not most, repair, refurbish, and resell these items to recoup some of their losses – a process is known as reverse logistics. To perform reverse logistics in Kenya makes economic and strategic sense. Our one-stop reverse logistics services cover return of products you have manufactured and/or sold, product return for repair, and mandatory/voluntary product recalls. Evolve logistics offer the services with a wide range of value-added services, including call center setup, operation and refunding.

SERVICES

- ✓ Auction/secondary market sales
- ✓ Recycling and recovery of used assets
- ✓ New asset handling

PACKING & CRATING

The safe arrival and relocation of valuable and important items begins with professional crating, packaging, and packing services. At Evolve Logistics Limited, we offer packaging and crating services with local collection and full quality control to ensure the safe handling and transportation of your fine art, designer furniture, antiques, and other valuables.

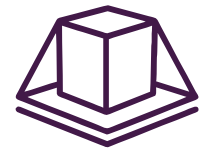

We take into account a full range of factors in selecting and creating the right packing and crating solutions for your needs, including the dimensions, value, size, weight, and fragility of each item, along with the mode of transportation or storage and the requirements of your final destination. While packing and crating may start with a good, strong crate, they do not end there; the contents of the crate have to be secured with quality blocking and bracing to ensure that they do not shift during the shipping process. What we use to block, brace, and package your item depends on what you are shipping.

Our basic crates are reusable plywood; the panels are held together with custom-sized attachments, and the different size availability of panels means that we can create a crate in any size and shape. Plywood has significant advantages over other crating materials; it is a great choice for heavy shipments and is durable enough to practically damage-proof your contents.

SERVICES

- ✓ Crating
- ✓ Part Pack or Fragile Pack
- ✓ Hood, Corrugated Boxing
- ✓ Strapping
- ✓ Skidding & Bundling
- ✓ Shrink Wrapping
- ✓ Livestock Transit Crates
- ✓ Fully Insured Services

LASHING & SECURING

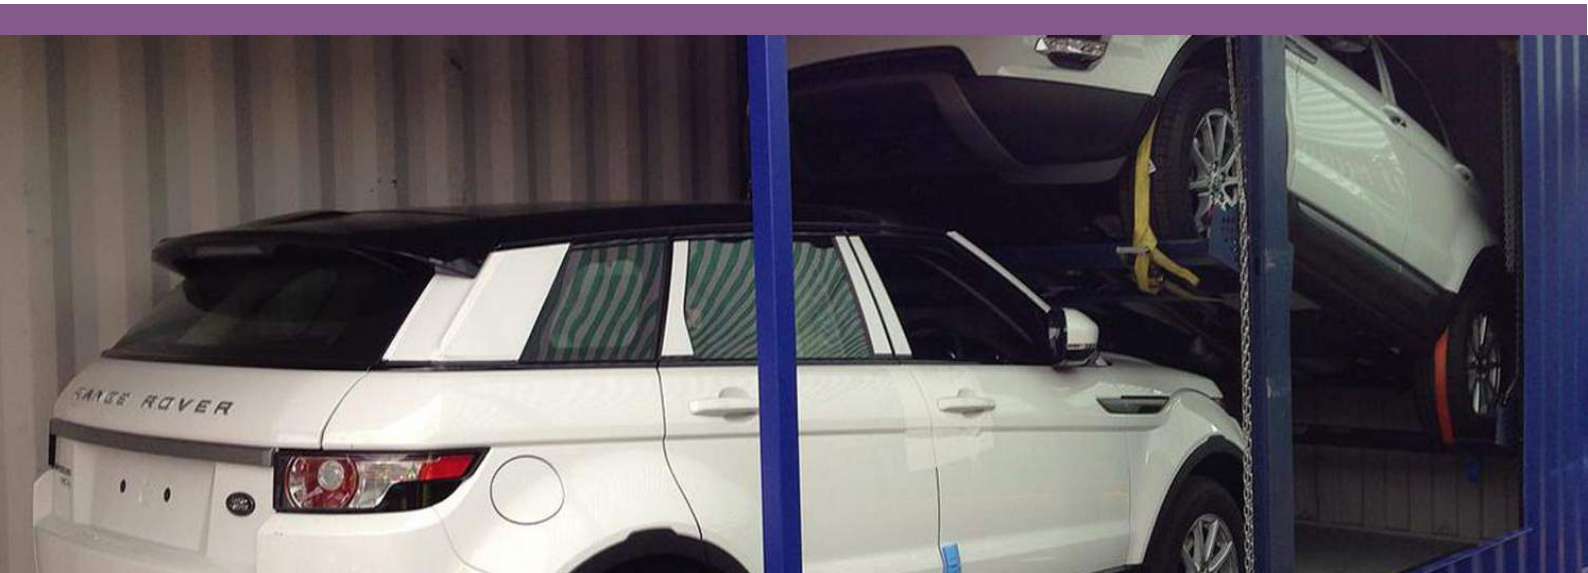

Whether you transport cargo on a truck, via rail, on a plane or on a sea vessel, professional lashing and securing is imperative.

Even if during all aspects of the transport your cargo is handled with all possible care, it will arrive damaged in case the lashing and securing is not sufficient. At all times this should be done in a reliable and effective way. When your cargo is not secured as it should be, it can cause problems with the stability of all means of transport.

If you do not have the proper material or not the proper knowledge, let Evolve Logistics Limited provide you with specialists for the lashing and securing of your cargo. We can handle this wherever you want: at your premises, at the terminal or in one of our warehouses.

SERVICES

- ✓ Container (SOC & LOC) Lashing
- ✓ Flat Rack Lashing
- ✓ Trailer Lashing
- ✓ Break-bulk Lashing
- ✓ Vessels
- ✓ Barges
- ✓ Ro-Ro
- ✓ Mafi

SUPPLY CHAIN MANAGEMENT

Supply chain management (SCM) is the active management of supply chain activities to maximize customer value and achieve a sustainable competitive advantage. It represents a conscious effort by the supply chain firms to develop and run supply chains in the most effective & efficient ways possible. Supply chain activities cover everything from product development, sourcing, production, and logistics, as well as the information systems needed to coordinate these activities.

The organizations that make up the supply chain are "linked" together through physical flows and information flows.

Physical Flow

Physical flows involve the transformation, movement, and storage of goods and materials. They are the most visible piece of the supply chain. But just as important are information flows.

Information Flow

Information flows allow the various supply chain partners to coordinate their long-term plans, and to control the day-to-day flow of goods and materials up and down the supply chain.

SERVICES

- ✓ Aircraft
- ✓ Sea Freight
- ✓ Road Transport
- ✓ Rail Transport
- ✓ Customs Brokerage
- ✓ Warehousing

GENERAL SALES AGENT

General Sales Agents (GSA) play a vital role in the growth and development of the air cargo industry by being an important vertebra in the backbone of the air cargo supply chain. Gone are the days when GSA's were appointed only as sales and marketing representatives who were responsible for selling air cargo space. Airlines are now looking for organisations that can responsibly conduct end-to-end business functions of the air cargo.

We evolve market strategies to promote sales and to achieve targets set by the airlines. Evolve Aviation promotes sales through marketing and commercial or under the guidance of the airline.

SERVICES

- ✓ Cargo Space Sales
- ✓ Office Space of International Standard
- ✓ Efficient & Skilled Staff
- ✓ Payment of Local & Other Taxes

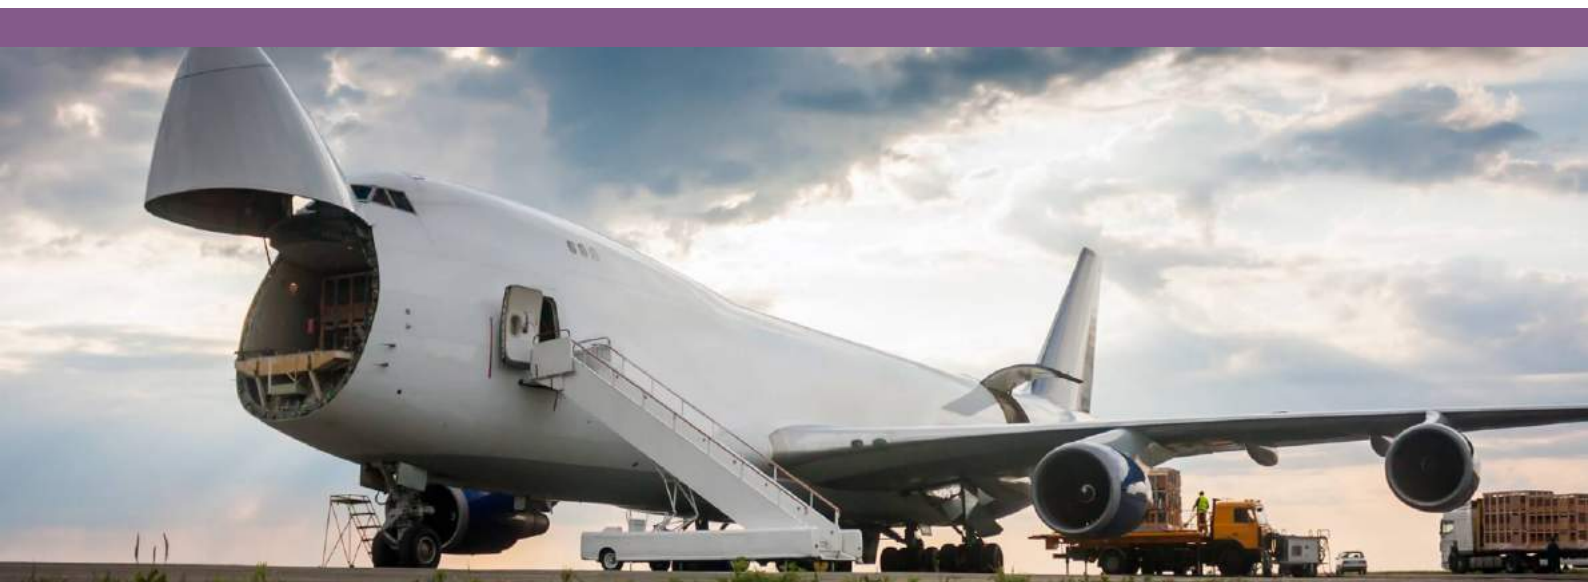

VESSEL CHARTER BROKER

An air charter broker such as Evolve Aviation has developed relationships with air charter operators within the East and Central African regions. These relationships allow a broker to secure significant discounts compared to standard market rates.

We know the aircraft types and airport services. You could arrange a jet charter flight yourself, but it involves knowing which type of aircraft is best for your needs, where to fuel (and refuel) it, and where the ideal runway is for your arrival and departure. Evolve's private flight advisors have that information at their fingertips and can explain to you what the best options are.

SERVICES

- ✓ Cargo Charter
- ✓ Affinity Charter
- ✓ Private Charter
- ✓ Voyage Charter

HELICOPTER LEASING

Evolve Aviation leases and charters helicopters on a range of terms tailored to customer requirements.

Lease contracts are usually priced on an 'hour-of-use' basis, subject to minimum usage requirements, or on a monthly or hourly charge rate agreed with the customer. Charges generally include the cost of maintenance based on an agreed program to meet prescribed standards.

SERVICES

- ✓ Aircraft
- ✓ Logistics
- ✓ Pilots
- ✓ Engineers
